A people such as the Irish, interestingly mystical and musical most naturally will turn to song, to voice its joy and its sorrow, and hence it is in the music of this nation is found that strange mixture of mirth and sadness which is so characteristic of the Celt. It has been said that Irish songs are "Drenched in sorrow," and it may be added that not only the songs, but all the music of Ireland's touched with a similar tender melan-choly. Even in the most rollicking drinking songs may be discovered an underlying stratum of subdued grief. To understand fully and to appre-ciate the spirit of Irish music one must have written himself either promptings of the same feeling or else he must place himself in the attitude assumed by the Irish. How To Destroy the Germ and End Disease. To cure catarrh so it won't come back

To cure catarrh so it won't come back you must, according to a noted authority, first drive from your body the millions of germs that are flourishing in the inner recesses of your nose and throat and are causing the disease.

There is a preparation which does this called Hyomei (pronounced Highome). Hyemel is a germ kelling vaporized air formed from the purest oil of Eucalyptus combined with other nealing and antiseptic ingredients. You breathe Hyomei through the mouth and nose by means of a little hard rubber inhaler which druggists furnish with this medicated germicidal air penetrates into every fold and crewice of the nucous membrane of your nose and throat, kills the catarrh germs that lodge there, soothes, reduces and heals the swollen infamed membranes, stops the discharge and opens up the clogged nose and air passages in a truly wonterful way. Lee & Osgood and many ther leading druggists in Norwich and feinitity sell Hyomei with the positive rusrances that it must cure catarrh or hat the money paid for it will be rounded.
